

Rite-Hite® Dock Seal Lineup

Rite-Hite loading dock seals provide a tight compression seal around trailer top and sides for highest sealing efficiency. As with all foam dock seals, access to loads on the trailer can be restricted by foam and fabric protrusion into the trailer opening. Dock seals are generally applied only to smaller dock door openings, 9' x 10' (2743 mm x 3048 mm) or less. Seal models vary in price based on their construction, durability and sealing efficiency features. All seals are available with head pads or head curtains and a number of options.

CLASSIC™ Seals with Traditional Headers

- » Traditional head pad/head curtain design
- » Standard side pad base fabric and ArmorPleat™ reinforcing fabric choices
- » Firefighter heat-dissipation protection available in headers to prevent burning from trailer marker lights*
- » 12-month parts and labor warranty, and 12-month money-back satisfaction guarantee*

CLASSIC with High Performance Headers

- » High performance light-blocking headers conform around protrusions, providing a better seal at the top of the trailer*
- » Backerless head pad includes internal stabilization to prevent head pad sag. Pivoting design prevents pop-off when yard jockeys are used*
- » Head curtain unit features self-locking edge for better seal in windy conditions*
- » Firefighter heat-dissipation protection included in headers to prevent burning from trailer marker lights*
- » Tough, triple-layer reinforced corner wear boots are detachable for quick, low-cost replacement when needed*
- » Standard side pad base fabric and ArmorPleat reinforcing fabric choices
- » 12-month parts and labor warranty, and 12-month money-back satisfaction guarantee*

PERFORMER™ Dock Seals

- » Side pads (including inside beveled surfaces) reinforced full height with high-strength, friction-resistant Durathon fabric over 22 oz. vinyl base layer. Eliminates the need for wear pleats; side pads last longer, look new longer*
- » Tough, triple-layer reinforced corner wear boots are detachable for quick, low-cost replacement when needed*
- » High performance light-blocking headers conform around protrusions, providing a better seal at the top of the trailer*
- » Backerless head pad includes internal stabilization to prevent head pad sag. Pivoting design prevents pop-off when yard jockeys are used*
- » Head curtain unit features self-locking edge for better seal in windy conditions*
- » Firefighter heat-dissipation protection included in headers to prevent burning from trailer marker lights*
- » 36-month money-back satisfaction guarantee** in addition to 12-month parts and labor warranty*

*Features exclusive to Rite-Hite.

**With appropriately signed paperwork.
