

ELIMINATOR™ II

SOFT-SIDED DOCK SHELTER

Durable foam frame design

Takes impacts from off-center trailers without the need for expensive steel bumpers.

Poly-wrapped side frames

Give unit stability, yet can be fully compressed – immediately returning to original shape and position.

Slim-profile 6"-wide side frames

11'2" overall footprint allows shelter to fit in tight clearance situations.

Pivoting canopy header

Protects unit from damage if trailer comes in off-center and too high.

Integral rain gutter

Diverts water off sides of shelter.

Detachable side curtains

Easily removed for maintenance flexibility or to allow increased air flow on the dock. Reattach in minutes.

Durathon™ fabric

Friction-resistant, highest-wear fabric provides ultimate durability. (Optional)

Firefighter™ protection

Heat-dissipating technology in head curtain prevents burning from hot trailer marker lights. (Optional)

Shown with optional PitMaster™ Under-leveler Seal

GET AN IMPACTABLE, FULL-ACCESS DOCK SHELTER WITH THE FLEXIBILITY TO FIT NARROW DOCKS.

The Eliminator™ II soft-sided shelter can take repeated hits from off-center trailers, without suffering the expensive damage associated with rigid wood, fiberglass and steel shelters. Yet, it still allows full, unobstructed access with flexible side curtains that create an effective perimeter seal. Plus, Eliminator II's advanced side-frame and header technology allows better sealing efficiency, greater resistance to damage, and the adaptability to fit more sealing needs than ever before.

RITE·HITE®

ELIMINATOR™ II

The design leader.

A world leader in innovative dock seal and shelter design, Frommelt advances the level of value and performance with the Eliminator™ II soft-sided shelter.

Ultimate impactability

Frommelt's exclusive poly-wrapped foam-core side frames provide ultimate impactability – even after repeated hits by off-center trailers. Side frames can be fully compressed and return to their original shape and position, time after time.

Ultimate flexibility

Narrow 6"-wide side frames allow the shelter to fit into the narrowest of spaces, and can eliminate the need for expensive repositioning of lights, signs and electrical conduit. 11'2" shelter footprint stays the same, regardless of projection.

Easily removable and reattachable side curtains

Remove, replace or change out Velcro-attached side curtains for the greatest in maintenance flexibility. An exclusive Frommelt® feature.

Enjoy your investment for years to come.

Only Frommelt Eliminator II soft-sided shelters deliver all these exclusive benefits and come backed by a standard 36-month, money-back customer satisfaction guarantee when ordered with premium Frommelt fabrics.
