

FDS SERIES

DOCK SEALS

High sealing efficiency

Tight seal around trailer reduces expensive energy loss and helps prevent theft. Sealing efficiency up to 95%.

Durable construction

Reputable Frommelt® quality manufacturing. Wear pleats on header corners improve durability and extend product life. Full-side wear pleats available.

Advanced head curtain

Flexible, high-support structure prevents pooling of water and reduces susceptibility to wear.

Beveled side pads

Provide proper trailer/door interface while reducing foam protrusion into trailer.

External breather openings

Openings located on bottoms of side pads allow air to escape, extending life of foam and fabric.

Rugged ArmorPleats™

Available on full length of side pads, ArmorPleats provide additional abrasion protection to extend the life of the dock seal. Available in high-strength, friction-resistant DURATHON™ fabric for greatest resistance to wear.

EXCELLENT ENVIRONMENTAL CONTROL AT THE DOCK

The FDS foam dock seal is manufactured by Frommelt, the industry leader in quality dock seals and shelters. When compressed by the backing trailer, the FDS seal creates a gasket-type seal at the sides and top of the trailer, ensuring high energy efficiency and maximizing employee comfort. This style of enclosure is appropriate for docks that serve a limited range of trailer sizes and that do not require full, unobstructed access to loads on the trailer.

RITE-HITE®

FDS SERIES

Industry-Leading Dock Seal and Shelter Solutions

The FDS dock seal by Frommelt® is part of the industry's most complete line-up of guaranteed environmental control products for the dock. Other popular Frommelt solutions include:

INSULATOR™ II Foam Dock Seal

- ▶ Designed for longest durability and lowest lifetime cost of ownership
- ▶ Unique backerless head pad construction creates lower pressure when trailer backs in for reduced friction and wear
- ▶ Pivoting head pad prevents damage from yard jockeys
- ▶ High-strength, friction-resistant Durathon™ fabric throughout eliminates need for troublesome wear pleats
- ▶ Standard Firefighter™ heat-dissipation protection in header prevents burning from trailer marker lights
- ▶ Backed by standard 36-month money-back satisfaction guarantee

SURVIVOR™ Impactable Dock Shelter

- ▶ Shelter style enclosure seals perimeter of trailer allowing full, unobstructed access to loads for more efficient material handling
- ▶ Rugged Neotec™ impactable poly side frames can take hits from off-center trailers without suffering costly damage
- ▶ Suitable for applications where full access to trailer loads is more critical than tightest sealing efficiency

RAINGUARD™ Header

- ▶ Tightest trailer-top sealing header available to prevent infiltration of water onto dock
- ▶ Helps prevent costly product damage and contamination and maintain employee safety
- ▶ Weighted, gravity-seal design and 15" trailer coverage range ensure tight, consistent seal regardless of trailer height or position
- ▶ Backed by standard 36-month money-back satisfaction guarantee

Complete the seal with PITMASTER™

- ▶ Industry's first and only seal to complete the job of the dock seal or shelter by simply and effectively sealing the 4th side of the dock opening
- ▶ Seals gaps to prevent heating or cooling energy from escaping the building through air flow and reduces heat transfer through steel leveler deck
- ▶ Helps keep dust, pests, debris and refuse from collecting in leveler pits
- ▶ Available to fit a wide variety of leveler types

Ask your Rite-Hite Representative for more information on the products appropriate for your application.
