

SCL Fabric Curtain Walls

- » Divide spaces to suit requirements of various functional areas
- » Control dust, fumes, and odors
- » Provide privacy or increase visual separation
- » Improve area aesthetics
- » Create interior storage areas
- » Conserve or recapture vital floor space

SCL Fabric Curtain Walls

Easily transform any space into smaller, separate zones

Constructed of industrial fabric, Zoneworks® SCL Curtain Walls are custom-designed and available in stationary or sliding configurations to suit a wide variety of applications.

High-durability construction

18-ounce vinyl fabric is fire retardant and meets NFPA-701 standards. Flexible bottom sweep seals against floor. Galvanized T-880 track and hangers with two-wheel trolleys are provided for the SCL Sliding Curtain Wall design.

Easy installation

SCL Curtain Walls suspend easily from ceiling joists or roof deck. Custom engineering ensures proper fit around corners and obstructions.

Compatible with all doors

Any door type can be incorporated into the design of a stationary SCL Curtain Wall. If desired, door framing can be designed into most applications.

Available options

- » Sliding design
- » Chain-weighted bottom pocket
- » Clear vision panels
- » Wash-down design options
- » Fabric head curtain
- » Stand alone mounting frames

Zoneworks Warranty

Zoneworks products come with a 12-month money-back guarantee of customer satisfaction and 5 year parts and workmanship warranty.

Note: Retrofit installation of any full height wall or curtain to an existing building may necessitate re-configuration or expansion of building fire suppression sprinkler system to maintain code compliance. It is the responsibility of the end user to consult with their insurer and/or local fire officials prior to installation of any retrofit curtains or walls.
