Rite-Hite® Dock Shelter Lineup

Rite-Hite loading dock shelters provide a wiper seal against trailer top and sides for high sealing efficiency. Dock shelter models vary primarily on their levels of impactability (ability to withstand hits from off-center trailers) and their degree of sealing efficiency. All shelters are available in a variety of fabrics, including our exclusive Durathon™ high-strength, friction-resistant fabric.

**Survivor™**

High durability shelter for occasional, moderate impact situations. No competitive equal.

- Impactable frame construction (high molecular weight polyethylene structure) resists damage from incidental trailer contact*
- Standard V-Flow™ fabric header diverts water off top*
- Steel support bumpers not required, saving on installation and repair/replacement costs*
- Durathon™ friction-resistant fabric available*
- 12-month parts and labor warranty
- 12-month satisfaction guarantee*

**GapMaster™**

Soft-sided impactable shelter with high sealing efficiency.

- Impactable foam side frames reinforced with high molecular weight polyethylene (HMWPE) layer for high impactability*
- Pivoting canopy header includes integral rain gutter*
- Side curtains feature fabric-wrapped*, gap sealing hooks
- Slim, HMWPE hooks resist damage; attached with Velcro for easy removal or replacement
- 11'2" (3404 mm) footprint on wall, even at large projections*
- Removable side curtains allow maintenance flexibility*
- "No hook" version available (Eliminator™)

**ComboShelter™**

For docks with mix of trailer traffic that includes liftgates; or drive-thru applications.

Same features as GapMaster except:
- Side curtains do not include hooks
- All curtains reinforced with second layer of fabric on back side to protect against damage and wear from trailer over penetration and curtain backlash*

**Eclipse®**

Most durable shelter with highest sealing efficiency. No competitive equal.

- Heavily weighted head curtain creates high-pressure seal across full width of trailer, blocking gaps along trailer top*
- Fabric corner pockets block gaps at trailer corners*
- 15" (381 mm) trailer coverage range; no pull-ropes required*
- Side curtains feature wrapped GapMaster sealing hooks*
- Reinforced, impactable foam side frames*
- Durathon side curtains resist damage and wear*
- Standard PitMaster™ leveler sealing system included*
- 12-month warranty, 36-month satisfaction guarantee*

**Eclipse® NH**

For drive-thru, combination trailer traffic, liftgate trailer traffic, or roll-up door trailer applications.

Same features as Eclipse except:
- Side curtains do not include GapMaster hooks
- Double-seal curtain edges provide superior sealing along trailer sides*

*Features exclusive to Rite-Hite.
