* Sizes that may have a longer lead times.

Notes:
1. Dok-Guardian interdeterrent/interlock can only be used with Rite-Hite Vehicle Restraints.
2. Additional components may be required for the interdeterrent/interlock option.
3. Interdeterrent - Dok-Guardian must be stored in "working position" across opening before power to the Dok-Lok Unlock switch is available.
4. Interlock - Inside Green Light must be present on the Dok-Lok before the Dok-Guardian curtain can be released from the "working position" across the opening. The Dok-Guardian must be stored in the "working position" across the opening before power to the Dok-Lok Unlock switch is available.
5. Light Communication Option may be applied to applications without a restraint. Option includes an interior control box with red/green lights, and outdoor red/green light assembly.
6. Units with a Clear Opening Width of up to 12' wide will deflect up to 17". Units with a Clear Opening Width greater than 12' will deflect up to 30".
